

2019 2020 **SUSTAINABLE REPORT**

### Aardwolf Africa Adventure Safaris

attained Travelife Partnership by integrating sustainability in all their operations including our supply chain.

90% of the accommodation suppliers we work with are eco rated and we have seen an increase over the last 2 years to support such facilities.

We have banned the use of single plastics in our operations. Meaning that we shall not be purchasing any plastic bottles for office use and usage on all our safaris. We have adopted large reusable water bottles for our office use and safaris and we therefore encourage our staff and clients to carry their own water bottle to reduce plastic waste and contribute to saving the environment.

On 26th September 2020 we took part in a Tree planting event that was organized by KWS (Kenya Wildlife Service) and FoNNaP (Friends of Nairobi National Park) as an exercise to plant trees in the Nairobi National Park to help reduce the pollution from its environs. We contributed Kshs 3000 for the cause to plant 15 trees and we hope to plant more trees in the future.

Aardwolf Africa Adv. Safaris have adopted to use eco-friendly products for their office daily use and continue to support more locally made products.

Get the best guidance and services from our dedicated staff and experience Kenya at its best.
